

Summary

Skilled Generative AI developer with expertise in full-stack web development. Proficient in building responsive, user-friendly applications with seamless user authentication and data management. Experienced in optimizing performance and enhancing user experience. Passionate about leveraging AI technologies to deliver innovative and robust solutions.

Skills

Python	Generative AI	Langchain
Javascript	React.js	Node.js
SQL / MYSQL	Mongodb	HTML / CSS
Socket.io		

Experience

Silver Touch Technologies Ltd

Jan 2024 - Present

Software Developer Intern

As a Software Developer Intern at Silver Touch Technologies Ltd, I gained hands-on experience in web development. My responsibilities included designing and implementing new features, optimizing application performance, and ensuring responsiveness. I collaborated closely with senior developers, participated in code reviews, and contributed to team meetings.

Education

Vishwakarma Government Engineering College	2020 - 2024
8.09 CGPA	B.E.(Computers)
Shri Muktajivan Vidhyalaya Higher Secondary School	2019 - 2020
82.33%	12th Board   GSHSEB
Shri Muktajivan Vidhyalaya Higher Secondary School	2017 - 2018
81.33%	10th Board   GSHSEB

Projects

HR Copilot

Developed an AI-driven HR management tool to streamline recruitment by analyzing and scoring candidate profiles, generating job descriptions via chat, and enabling real-time job postings. Utilized GPT-4 and LangChain for NLP tasks, with a scalable Node.js backend and responsive React.js frontend.

Generative AI, OpenAI, React.js, Nodejs, Mongodb

InterChat: Real Time Chat rooms.

<https://chat-front-end-lime.vercel.app>

Developed a web-based communication tool that connects users with similar interests through personalized chat rooms. Users with similar interests can chat, share PDF files, images, and their current location within the personalized chat rooms. Additionally, they have the ability to engage in private one-on-one conversations with any member of the group, allowing for more personalized and private interactions.

Socket.io, Node.js, Express, React.js

ShopZee: An E-commerce Web Site.

Designed and developed a fully functional e-commerce website with an intuitive admin panel for managing products, orders, and user data. The site includes essential features like shopping carts, user authentication, search functionality, sorting filters, order history, and real-time order status notifications. Ensured a seamless user experience by integrating all standard e-commerce features. The platform supports efficient product management and enhances user interaction with comprehensive order tracking and management tools.
